• Tender evaluation for RFT2020-3 for Chillinup Road (Confidential)

PURPOSE OF THE REPORT

To consider the tender RFT2020-3 pavement construction (gravel overlay) including, vegetation clearing, spoil removal, drainage improvements and culvert installation on Chillinup Road and to accept the submission that provides the best value to the Shire.

BACKGROUND

This project is part of the Local Roads and Community Infrastructure (LRCI) Program. The guidelines for this funding state that the work shall be undertaken by contractors not Local Government thus providing opportunities and support for local contractors and workers.

COMMENTS

Five tenders were received and all met the tender requirements.

The Tenders were ranked according to criteria that would determine the most effective and efficient contractor.

The evaluation criteria were weighted in the following manner:

Price and price structure: (score lowest to highest)	50%
Previous experience/performance working with contracts of similar nature (score 1-5)	30%
Previous experience in working on local government environment: (score 1-5)	20%

The tenders were assessed by:

- Yvette Wheatcroft- Manager of Works,
- Geoff Carberry- Assets and Waste Manager and
- Danny Coleman- Coleman Consulting

Gnowangerup Shire – A progressive, inclusive and prosperous community built on opportunity

After the assessments, the tenders were ranked in the following order:

CONTRACTOR	RANKING	TOTAL SCORE	Notes
AA Contractors	1	67	Available to start late January 2021
Fulcher Contractors	2	67	Available to start late February 2021
Road Line Civil Contractors	3	50	
GS Hobbs	4	47	
J K Lillyman	5	44	

AA Contractors and Fulcher Contractors both ranked equal and are both capable of carrying out the work.

Fulcher Contractors have given their availability to start the work as late February after they finish Kwobrup Road shoulder widening for tender RFT2020-2.

AA Contractors are available to start in mid-January.

It is the officers recommendation to engage AA Contractors as it is advisable to undertake prime seal (new work) earlier in the summer. After March the cold nights can affect the seal and cause stripping of the aggregate.

CONSULTATION

Local landholders were notified of the upcoming work.

LEGAL AND STATUTORY REQUIREMENTS

Due to the estimated cost of the works exceeding \$250k it is a purchasing requirement to go to tender, pursuant to r.11 of the *Local Government (Functions and General) Regulations 1996.*

It was anticipated that this scope of works would come in under or near the tender threshold of \$250,000 so it was decided to go out to tender.

POLICY IMPLICATIONS

Nil

FINANCIAL IMPLICATIONS

This project is fully funded by the LRCI grant so there is no financial cost to council. The recommended tender fits with the budget estimate for the project.

Gnowangerup Shire – A progressive, inclusive and prosperous community built on opportunity

STRATEGIC IMPLICATIONS

Theme 5 Financial Sustainability

Objective 3 to effectively plan for the funding and delivery of major projects.

Strategic Initiatives 3.1 Effectively prioritise major capital projects to facilitate long-term financial sustainability.

IMPACT ON CAPACITY

This project will be completed by contractors.

ALTERNATE OPTIONS AND THEIR IMPLICATIONS

Nil

CONCLUSION

All tenders received were within the tender guidelines and evaluated as to their price and competencies. AA Contractors and Fulcher Contractors both ranked equally, however AA Contractors are available a month earlier and are therefore the recommended contractor for the work.
